The dimensions of the plug are substantially less than required. The wire ends soldered to the terminals of the flashing unit and the LEDs are not adequately protected against pulling and twisting. EU/BULGARIA	<p>CATEGORY: Childcare articles and children's equipment</p> <p>PRODUCT: Combination pushchair with babies' car seat</p> <p>BRAND: Unknown</p> <p>NAME: Baby Stroller with Car Set</p> <p>TYPE/NUMBER OF MODEL: Model: F08C - 12/100.000 YMLU8374295</p> <p>Batch number/Barcode: Unknown</p> <p>DESCRIPTION: Combination pushchair in four colour options: red/black; pink/grey; light blue/azure and green/beige. The frame is made of a metal construction with two double front wheels and a single rear wheel, with a double handle/main outer and an inner handle for attaching a plastic tray for cups/, a five-hole belt, a sunshade with a window and a big basket for luggage. The model is available with a baby car seat for the 0/0+ age group in the same colour combinations, placed in single packaging – a cardboard box with a label.</p> <p>COUNTRY OF ORIGIN: China</p>   	<p>INJURIES</p> <p>Injuries</p> <p>The angle between the seat and the backrest is inadequate which leads to an inappropriate seating position of the child; thus, the child will be bent forward, placing the weight on the safety belts. The safety belts are not efficient enough, which may result in the child falling out of the pushchair. In accessible areas there are dangerous holes and openings as well as sharp points where the child may put his/her fingers and get injured. The inside upholstery of the pushchair has not been well stretched, which poses a risk of suffocation of the child in the pushchair.</p> <p>In addition, warnings required by the standard are missing.</p> <p>The product does not comply with the relevant European standard EN 1888.</p>	<p>Compulsory measures: Ban on the marketing of the product and any accompanying measures.</p>
