The bioethanol tank is made of stainless steel and is placed in the middle of iron base. This tabletop fire includes white decorative stones and an extinguisher. White decorative stones are adjusted on the iron base round fuel tank. Cover glass is 17 cm long and base is 10 cm.</p> <p><b>COUNTRY OF ORIGIN:</b> China</p> 	<p><b>BURNS, FIRE</b></p> <p>The table fire has an unsafe structure: the fuel tank leaks from its upper junction when it is filled full. The leaked fuel may get into the space with stones, in which case the decorative stones made difficult to extinguish the fire. That may lead to a situation where flames can cause burns and fire.</p>	<p>Compulsory measures: Import rejected at border.</p>

USA	<p><b>NAME OF PRODUCT:</b> Aqua Lung buoyancy compensators with SureLock II weight pocket handles</p> <p><b>UNITS:</b> About 30,000 in the United States and 11,300 in Canada (an additional 110,000 were previously recalled in the U.S. in March 2013)</p> <p><b>DESCRIPTION</b> This recall involves all Aqua Lung buoyancy compensator vests with SureLock II rubber handles attached to the weight pockets, including those with SureLock II handles that were replaced in the previous recall. The handles are gray rubber, measure about 2 inches tall by 4 inches wide and extend from the forward end of the ditchable weight pockets. SureLock II handles were installed in most Aqua Lung and one model of Apeks buoyancy compensators including: all discontinued Black Diamond, Pro QD and Pro QDi3 models with serial numbers lower than BB408620. The recall also includes all Apeks Black Ice, Axiom, Axiom i3, Balance, Dimension, Libra, Lotus, Pearl, Pearl i3, ProLT and Zuma models with serial numbers lower than BB408620. The buoyancy compensator's model name is embroidered on the inside back pad or on the right lobe. "Sure Lock" is molded into the back of the weight pocket. The serial numbers are located on a tag under the back pad of the buoyance compensator or inside the pocket. Earlier models could have the number printed on a tag behind the hook and loop inflator hold down on the left shoulder.</p> <p><b>IMPORTER</b> Aqua Lung America, of Vista, Calif.</p> <p><b>MANUFACTURED IN:</b> China and Mexico</p> 	<p><b>HAZARD:</b> The rubber handles can detach as divers are trying to remove the weight pockets to rise to the surface in an emergency. This poses a drowning hazard.</p> <p><b>INCIDENTS/INJURIES</b> Aqua Lung is aware of an additional 50 reports of the handles detaching from the weight pockets. No injuries have been reported.</p>	<p>Consumers should immediately stop using the recalled buoyancy compensators and return the two weight pockets to an authorized Aqua Lung dealer to receive a free inspection and free newly-designed replacement weight pocket handles.</p>
